Paul, we are still working on providing all the evidence that Draper City wants to verify our Grandfathered status on the Point of the Mountain Quarry. It looks like we should have a determination by the end of May. We therefore request an additional extension on providing the updated reclamation plan and surety calculation to May 31, 2016. The reason being is this decision controls the boundary and limits of our intended disturbance and bonding limits. Brent Sumsion

At this point we have three directives:

1. Update the reclamation cost estimate. This is due March 31.
2. Respond to our review of the map you submitted January 12, 2016. This is also due March 31, 2016.
3. Reclaim the 2.09-acre area that was the subject of the cessation order we issued last fall.

These are all interrelated, and I assume your extension request is for all of them. Would you please confirm that my assumption is correct or provide clarification?

Thank you.
